

Black Mask™

Purifying facial treatment for a smooth, polished complexion

This intensive mask with a moist after-feel deep cleans the skin, ridding it of impurities and excess sebum.

- Purifies and soothes skin with unique properties of silt derived from European freshwater lakes
- Contains the highest quality earth clays to unclog pores and absorb excess oil
- Leaves skin looking polished and smooth
- Helps to noticeably refine the appearance of pores

Good for all skin types

Finishing Touch™

Microdermabrasion scrub for polished skin

This serious facial exfoliation treatment removes dead, dehydrated surface cells from the skin for an immediate soft, smooth appearance.

- Exfoliates skin with Polynesian Volcanic Black Sand and ultra-fine Pumice
- Contains Freshwater Silt that hydrates, nourishes and helps absorb impurities
- Rejuvenates and brightens dull skin
- Leaves a moist, clean feel after rinse-off unlike most scrubs

Good for normal, combination, oily and mature skin types.

Available for purchase at Parkinson Dermatology.
